About a year ago I did a search for "Aerodynamics for Naval Aviators PDF" and was amazed when my search turned up zero relevant results. Here is a text produced by the US Navy and referenced by several FAA training documents and completely unavailable unless you purchased a copy from a private publisher! Well, after a very lengthy (and costly

Hydraulic engineering as a sub-discipline of civil engineering is concerned with the flow and conveyance of fluids, principally water and sewage. One feature of these systems is the extensive use of gravity as the motive force to cause the movement of the fluids. This area of civil engineering is intimately related to the design of bridges, dams, channels, canals, and levees, and to both ...
