

### **programming entity framework pdf**

The Entity Framework is a set of technologies in ADO.NET that support the development of data-oriented software applications. Architects and developers of data-oriented applications have typically struggled with the need to achieve two very different objectives.

### **Entity Framework - Wikipedia**

My command keeps timing out, so I need to change the default command timeout value. I've found myDb.Database.Connection.ConnectionTimeout, but it's readonly.. How can I set the command timeout in Entity Framework 5?

### **Set database timeout in Entity Framework - Stack Overflow**

I think where I went wrong is in that I initially created the model from the database and forgot to set the autonumber field. Later I edited my database and set this property followed by the "update model from database" command within visual studio 2010.
